

SIEA 2024 Pre-congress workshop

Consorzio Universitario della Provincia di Ragusa

(ex. Distretto Militare), Aula 8

Via Dottor Solarino, Ragusa Ibla

27 giugno ore 10:30 – 13:00

Living lab and case studies for the transition towards agro-ecology and climatic neutrality in marginal areas and/or at risk of erosion. (Task 7.1.4 Agritech project)

10:30 Greetings and AgriTech Project Presentation

Giovanni Quaranta, *Università degli Studi della Basilicata – Dipartimento di Matematica, Informatica ed Economia (DiMIE)*

10:45 Contributed papers

Carbon neutrality in agricultural marginal ecosystems

Montanaro G., Carlomagno A., Nuzzo V. - *Università degli Studi della Basilicata*

Corresponding Author: Giuseppe Montanaro, giuseppe.montanaro@unibas.it

Climate change mitigation scenarios in agriculture through territorial life cycle assessment: the case of Sardinia region

Chehade L.A., Pizzileo G., Chiriaco M.V., Debolini M. - *CMCC Foundation - Euro-Mediterranean Center on Climate Change, Italia*

Corresponding Author: Lara Abou Chehade, lara.chehade@cmcc.it

Farmers as co-developers of digital-based certified irrigation schemes

Maggio A., D'Urso G., Chirico G.B., Di Stasio E., Palladino M., Cirillo V. - *Università degli Studi di Napoli Federico II*

Corresponding Author: Albino Maggio, almaggio@unina.it

Adapting agriculture to climate change in small Mediterranean islands: The importance of local knowledge

Biasi R., Brunori E., Bernardini A., Rocci A., Maesano M. - *Università degli Studi della Tuscia*

Corresponding Author: Rita Biasi, biasi@unitus.it

Evaluating the Long-Term Impacts of Agrifood Living Labs: A Literature Review

Marchese C.T. - *Università degli Studi della Basilicata*

Corresponding Author: Concetta Tania Marchese, concettatania.marchese@unibas.it

Actor roles in Rural Living Lab activities: a literature review

Pecoraro R. - *Università degli Studi della Basilicata*

Corresponding Author: Roberta Pecoraro, roberta.pecoraro@unibas.it

The Contribution of Living Labs to Shaping Alternative Food Systems Governance Strategies: A Literature Review

Ioia M. - *Università degli Studi della Basilicata*

Corresponding Author: Morena Ioia, morena.ioia@unibas.it

Using Living Labs to Tackle Innovation Challenges for Climate Neutrality: A Study on Marginal Cropping Systems in Basilicata

Salvia R., Quaranta G. - *Università degli Studi della Basilicata*

Corresponding Author: Rosanna Salvia, rosanna.salvia@unibas.it

From plot experimentation to On Farm Experimentation: evaluation of drought resistant maize hybrids to deal with the irrigation crisis

Pesce G.R. (1), Alandia G. (2), Borreani G. (3), Ferrero F. (3), Giannini V. (1), Marraccini E. (2), Maucieri C. (1), Tabacco E. (3), Borin M. (1) - *Università di Padova (1), Università di Udine (2), Università di Torino (3)*

Corresponding Author: Gaetano Roberto Pesce, gaetano.pesce@unipd.it

12:30 Discussion and Conclusions
